- Taleo, Jobvite, ORC
- Agile/Scrum, SDET, SOX
- CUI Handling
- Release Validation
- English/Spanish

Experience

Science Applications International Corporation | Remote, FL

Business Solutions Engineer (SDET / QA Automation)

01/2022 - Current

- Designed and implemented scalable test automation frameworks supporting 24+ enterprise HR and business applications
- Supported CI/CD pipelines through test planning, environment validation, and controlled promotion of changes into production.
- Executed end-to-end testing including regression, smoke, API testing, UI automation, integration, system and security testing within Agile sprints.
- Collaborated with IT Application, Infrastructure, and MSP teams to ensure compliant system integrations aligned with SOX / compliance requirements.
- Mentored junior automation engineers on SDET best practices, test strategy, and defect management.
- Reviewed customer, system and software requirements to ensure the flow down of requirements is complete and unambiguous

Science Applications International Corporation | Remote, FL

Junior Automation Test Engineer

- Developed and maintained automation solutions using UiPath, Power Automate, and UFT for Oracle HCM Cloud.
- Executed requirements-based test cases for quarterly updates, patch releases, and release validation cycles.
- Performed API testing and security access role validation to ensure compliance and proper system configuration.
- Utilized Azure DevOps and JIRA for test case management, defect tracking, and traceability.

Science Applications International Corporation | Remote, FL

Test Automation Intern

- Automated HRIS testing processes in support of global HR teams.
- Assisted with security role monitoring and configuration reporting.
- Supported regression, functional, and system testing under Agile, Scrum, and Waterfall methodologies.

Precision Test Solutions | Winter Park, FL
Quality Assurance Tester

- Documented defects and executed requirements-based test cases.
- Performed manual and automated testing of aerospace and military components.
- Conducted root-cause analysis, defect documentation, and corrective actions.
- Maintained and calibrated sensitive test equipment to ensure mission readiness.

Education and Training

University of Central Florida | Orlando
Bachelor of Science in Computer Engineering
